

Client: Devon County Council

Location: Grand Western Canal, Tiverton

Brief: Devon County Council invited us to tender for the design and instal of the new Canal Visitor Centre. This included the design and fitting of panels to two 10m long curved walls, the design and production of 4 low tech interactives and an interactive touchscreen. The entire 10mile length of the canal was photographed in 360 degree panoramas and authored onto an interactive map with video footage and informaton hotspots.

Our services included:

- Archtectural build support
- Copywriting
- Historical research
- Photo research
- Wooden interactives
- Computer interactives
- Production
- Install

Low tech, 'What the butler saw' mutoscope used to show archive footage

Low tech, 'match the bodies' spinner

A snakes and ladders variant canal race boardgame was designed
